PROJECTS

Movie Ticket Booking in C++

Jul 2022 - Aug 2022

Simple Movie Ticket Booking System is based on a concept of recording and booking customer's movie ticket details. Here the user can perform all the tasks like booking a movie show, receiving tickets, and card registration and view all movie show details.

A Quiz Application

Mar 2023 - Present

This application will provide convenience in MCQ mode of examinations and screening tests. This application will eliminate paperwork and will be able to effectively store all the information in the database. The purpose of this application is to save student data, to measure the marks obtained by each student and to point out their mistakes.
